## VERSION SUPPORT

We support the current and last two Major releases of DES and AlertVu software products.

### Digital Evidence Management Hardware (if applicable)

During the one-year warranty period, L-3 Mobile-Vision agrees to repair or replace any Digital Evidence Management System component (based on that component's availability) that fails due to defective materials or workmanship. Sole responsibility under this warranty shall be to repair, adjust, or replace (at L-3 Mobile-Vision's option and according to the manufacturer's warranty conditions) any software, equipment, and peripheral that is part of the originally installed system that fails during this period and is not subject to any of the exclusions listed herein. Equipment, peripherals, and software supplied by the customer are excluded from coverage. During the one-year warranty period, server hardware that requires Next Business Day On-site Service will be coordinated through L-3 Mobile-Vision and provided by Dell Computer. The L-3 Mobile-Vision Technical Support Engineer will determine if an on-site service technician must be dispatched to support a qualified repair. For Next Business Day On-site Service, a technician will typically arrive on-site the next business day. Generally, calls received by L-3 Mobile-Vision before 4:00 p.m. local (EST) will qualify for next-business day service. However, L-3 Mobile-Vision has no liability should the provider (DELL) postpone, cancel, or delay the service. In the event that additional parts/resources are required once the on-site technician is at the Customer's site, work may be temporarily suspended until the additional parts/resources arrive. For years two (2) through five (5) of the manufacturer's warranty, service is coordinated and provided directly through Dell Computer.

### AlertVu License Plate Recognition Hardware

L-3 Mobile-Vision's obligation under the one year warranty period shall be subject to the limitations set forth in this document. Warranty excludes on-site labor to diagnose components that were part of the originally installed system and any labor to remove or re-install components. Customer is responsible for product removal, replacement and shipment to L-3 Mobile-Vision. Any on-site engineering services to resolve a hardware warranty item not addressed through an additional service agreement will be billed at the currently charged rates.

### AlertVu License Plate Recognition Client Software

L-3 Mobile-Vision warrants its AlertVu Software to be free from operational and material defects and covers all software updates for a period of one (1) year from original "implementation" date (the date that L-3 Mobile-Vision's Support Engineers performed on-site installation, configuration, and training). L-3 Mobile-Vision warrants that its AlertVu License Plate Recognition Software is adequate in features and functions to facilitate the scanning, processing and transfer of license plate data for law enforcement purposes. L-3 Mobile-Vision will not be liable for any direct, indirect, consequential, or incidental damages arising out of the use or inability to use this product.

### NON-WARRANTY REPAIR WORK

*Note: excludes RIMAGE, PRIMERA, VIEVU and DELL (server and storage) branded products as well as associated network (access points, switches, UPS) equipment. We will assist your agency in facilitating repairs for these products through the provider.*

The customer may return a product for repair that is not covered by warranty. A standard repair fee, specific to the product, is charged for any product that is repaired outside of the warranty period. Repairs performed on products out of warranty carry a 90-day warranty, which begins the day the repaired item is shipped back to the customer. For items classified as "No Trouble Found" (NTF): the customer is notified if, after examining and testing a returned product, L-3 Mobile-Vision concludes that the product is not defective. The product is returned at the customer's expense and the customer is charged a nominal examination and testing fee (Bench Fee) or the standard repair fee, whichever is less.

### SUPPORT

Warranty repairs and support can be arranged by calling (800) 336-8475 Monday - Thursday between the hours of 8:00 AM and 8:00 PM EST and Friday between the hours of 8am and 6pm EST or via e-mail at [DESSUPPORT.MVI@l-3com.com](mailto:DESSUPPORT.MVI@l-3com.com) (a valid warranty or extended maintenance agreement is required to receive technical support) where a ticket number will be designated and the issue assigned to a member of the support team. An authorized point-of-contact name and phone number will also be needed in case follow-up information is required. L-3 Mobile-Vision provides on-line diagnosis and support for our Back Office video management systems. Most service requests can be handled through this remote method. If the problem is determined to be related to any of the L-3 Mobile-Vision provided hardware, then L-3 Mobile-Vision will coordinate the service with the appropriate hardware provider and facilitate the fix or replacement. Should an agency not be able to, or prefers not to provide the support necessary for our technicians to repair the equipment remotely, on-site service may be required. L-3 Mobile-Vision does not guarantee a specific response time if on-site service is required. All product support is provided remotely through our Technical Support and Depot Repair Center. If on-site or "near-site" support is needed through our vendors or directly from L-3 Mobile-Vision the customer is responsible for all related labor, parts and travel charges. If the customer has an active warranty the parts will be provided under the domain of the warranty agreement. Near-site support offers convenient off-premise third-party drive-in service of your L-3 Mobile-Vision equipment. L-3 Mobile-Vision does not cover near-site support under the warranty by a third-party vendor.

*Please note: We will attempt to contact your representative (3) times. If we do not hear from your representative 24 hours after we place the 3<sup>rd</sup> call, the issue will be deemed resolved and we will close the ticket.*

*Note: Some component parts are specifically designed for customer removal and replacement. If during troubleshooting the L-3 Mobile-Vision support engineer determines that a repair can be accomplished with such a part or component, L-3 Mobile-Vision will ship the component part directly to the customer. Unless otherwise noted, service parts will be shipped via ground freight service.*
